

application of an operating voltage.

10. (Amended) The radio receiver set according to claim 15, wherein:
the memory corresponds to a non-volatile memory.

11. (Amended) The radio receiver set according to claim 15, further
comprising:

a transmission device for receiving one of the operating instructions
and at least sections of the operating instructions from a central device.

15. (Amended) A broadcast radio receiver set, comprising:
a memory for storing operating instructions that are capable of being
retrieved, through input selection, in any desired sections, and that are able
to be at least acoustically displayed via an output device;

16. wherein the radio receiver set is configured to be compatible with at least one of a radio data system supplementary service and a traffic message
channel supplementary service.

REMARKS

Claim 8 has been canceled, so claims 9-15 remain pending in this application. The Applicant thanks the Examiner for indicating that claim 15 would be allowable if rewritten in independent form including all of the limitations of the base claim. Claim 15 has been amended to include features of base claim 8. In addition, remaining claims 9-14 now all ultimately depend from allowable claim 15. It is therefore respectfully submitted that claim 15 and its dependent claims 9-14 are in allowable condition.

CONCLUSION

In light of the foregoing, Applicant respectfully submits that all pending claims are in condition for allowance. Prompt reconsideration and
